

Week 3 Meeting Minutes

MIT ACT — Crennotech Group Project (Smart Document Scan AI) · Meetings: Mon 3 Aug & Thu 6 Aug 2026

Meeting 1 — Monday 3 August 2026, 6:00 PM (Microsoft Teams)

Attendees: Amrit Dahal, Madhab Poudel, Subham Giri, Sujit Budhathoki

What we talked about:

- Agreed the full list of fields to extract from SOW documents, based on the project brief and our Week 2 analysis.
- Assigned the confidence-scoring rules task to Sujit for this week's individual/rotating deliverable.
- Discussed supported import formats (PDF, Word, Excel, email, scanned/image PDF) for the functional requirements doc.

Meeting 2 — Thursday 6 August 2026, 6:00 PM (Microsoft Teams)

Attendees: Amrit Dahal, Madhab Poudel, Subham Giri, Sujit Budhathoki

What we talked about:

- Reviewed the draft Functional & Non-Functional Requirements document and agreed final wording.
- Sujit presented his draft confidence-scoring rules (High/Medium/Low); team agreed the approach.
- Checked requirements against CleanTasker fit and flagged two open items (UI action detail, exact API field names) to raise with Kiran.
- Action: push all three requirements documents to GitHub by Saturday 8 Aug; tag v0.3-week3 and submit Week 3 evidence by Sunday 9 Aug.

Next meeting: Monday 10 August 2026, 6:00 PM — start of Week 4 (System Architecture, Database Design & AI Workflow).
