

Week 2 Meeting Minutes

MIT ACT — Crennotech Group Project (Smart Document Scan AI) · Meetings: Mon 27 Jul & Thu 30 Jul 2026

Meeting 1 — Monday 27 July 2026, 6:00 PM (Microsoft Teams)

Attendees: Amrit Dahal, Madhab Poudel, Subham Giri

What we talked about:

- Split up Week 2 work: Madhab leads the SOW sample analysis, Subham continues OCR/AI research, Amrit coordinates the Business Requirements draft.
- Looked at a few real SOW samples together to agree on what "common fields" and "inconsistencies" actually mean for our project.
- Agreed to keep pushing evidence to GitHub on the day it's done, same as Week 1.

Meeting 2 — Thursday 30 July 2026, 6:00 PM (Microsoft Teams)

Attendees: Amrit Dahal, Madhab Poudel, Subham Giri

What we talked about:

- Reviewed the SOW Sample Analysis and agreed the list of common fields and inconsistencies was ready to push to GitHub.
- Subham shared his OCR/AI research findings; team agreed on an early direction (OCR first, then AI field-mapping) to carry into Week 3–4.
- Drafted the Business Requirements document together and agreed final wording ahead of Friday's push.
- Action: push Business Requirements draft to GitHub by Saturday 1 Aug; submit Week 2 evidence by Sunday 2 Aug.

Next meeting: Monday 3 August 2026, 6:00 PM — start of Week 3 (Functional Specification).
