

Data-Extraction Field List

MIT ACT — Crennotech Group Project (Smart Document Scan AI) · Week 3 · 5 August 2026

Purpose

This lists every field the system needs to pull out of a Scope of Work (SOW) document, so it can be checked and imported into CleanTasker.

Fields to extract

Field	Example	Notes
Client name	Bright Office Solutions Pty Ltd	Usually top of the document
Site / address	Level 3, 45 Example St, Brisbane	May be more than one site per client
Building type	Office, retail, warehouse	Affects which task templates apply
Areas	Lobby, kitchen, restrooms, offices	Often a list or table
Cleaning tasks	Vacuum, mop, wipe surfaces	Linked to an area
Frequencies	Daily, weekly, 3x/week	Wording varies a lot between customers
Periodic services	Quarterly carpet clean	Sometimes listed separately from regular tasks
Consumables	Soap, bin liners, paper towel	Sometimes mixed into the task list
Compliance notes	Induction required, WHS rules	Important for site access
Site settings	Access hours, alarm codes	Operational detail, not cleaning-specific
